

1 **Abstract of Disclosure**

2 A club-carrying apparatus includes a bag and a support device. The
3 support device includes two legs, two rods, a ferrule, a pad and an anchor.
4 The legs are pivotally connected with the bag. Each of the rods includes
5 an upper end, a lower end and a waist between the ends. The upper end
6 of each of the rods is attached to one of the legs. The ferrule binds the
7 waists of the rods. The lower ends of the rods are attached to the pad.
8 The anchor is installed on the bag in order to hook the rods.
